

2007 Skeena – BVLVD Woodstove Exchange Program

SOME GOOD REASONS TO ACT NOW!

ARMINDO DETEVES of Houston received \$550 in rebates from the District of Houston and the BVLVD Airshed Management Society when he upgraded to a new Harmon pellet stove in January. “I sure appreciate the clean, steady heat this new pellet stove provides and am glad to be doing my part to keep the air clean.”

A.J. Downey of Smithers installed a new advanced

combustion stove two years ago. “I am so impressed with how clean and efficient this new stove is. I burned less than three cords of wood last year, which allows my stove to qualify as a secondary heat source and lowers my house insurance payments each month.”

Nadine Harrison of Burns Lake upgraded to a super-efficient catalytic woodstove four years ago. “We love our

woodstove! It burns right through the night and our annual firewood use dropped almost in half! It saves us loads of time, work and money.”

ROY BECKLEY of Terrace received \$250 from the BVLVDAMS when he exchanged his old airtight for a new clean burning stove in January. “The difference in smoke coming out of my chimney is night and day. I’ve made my neighbours really happy, and my home and family

are safer with the reduced risk of chimney fire.”

DON’T MISS YOUR OPPORTUNITY TO join these satisfied stove owners who are making a positive difference in their neighbourhoods!

LOCAL CREDIT UNIONS are offering **favourable loans at prime** for program participants so that you can act now and reap the savings. Visit your local branch for details.

Visit a Local Retailer and take advantage of discounts, rebates, and firewood savings when you upgrade to a new efficient woodstove or appliance!

Use LESS WOOD and be GOOD to your neighbourhood!
